

NATURE AND CULTURE

**If it were not for the sky and mountains
there could be no clouds**

**If it were not for the clouds there could
be no rain**

**If it were not for the rains there could be
no streams**

**If it were not for the streams there could
be no grass and crops**

**If it were not for the crops there could
be no livestock and produce**

**If it were not for the livestock and
produce there could be no village**

**If it were not for the village then we,
people, could not be here**
