Dear Ms. Cavanna,

Re: Dissemination of Kitui Barrages Project Experience

Further to your letter of 13/06/98, the Notes on 12/06/1998 Meeting to Discuss Terms of Reference for the Production of the Booklet to Disseminate the Kitui Barrages Project Experience, and the general tone of that meeting, I think you should issue and manage Prof. Thomas's contract.

If you do so, then you will be able to incorporate the concerns you and your board raise. It will also simplify handling for all parties concerned. Since you hold the funds and thus are accountable, you can proceed with the publication. Since it will be contracted to yourselves, it should be your publication.

Yours sincerely,

G-C. M. Mutiso
